LIQUID BASED CYTOLOGY - GYNAEC CERVICAL CYTOLOGY

SPECIMEN TYPE: Liquid based preparation (The 2014 Bethesda System)

CLINICAL HISTORY:Secondary infertility P/S- Cervix deviated to right, bleeding through os

GROSS DESCRIPTION: One prepared slides

SPECIMEN ADEQUACY:
Satisfactory for evaluation; endocervical/transformation zone component present

GENERAL CATEGORISATION:
Negative for intraepithelial lesion or malignancy

INTERPRETATION /RESULT:
Inflammatory smear with Shift in flora suggestive of bacterial vaginosis.

Note :

Comments:

1. Cerviacal cytology is a screening test primarily for squamous cancer and its precursors and has associated false nagative and false positive results. Follow up of unexplained clinical signs and symptoms are recommanded to minimize false nagative result.
2. Liquid Based Cytology is validated for screening for epithelial cell abnormalities of cervix only and not inflammatory lesions.

Fine Needle Aspiration Cytology (FNAC)

SPECIMEN:FNAC from infra orbital swelling

CLINICAL DETAILS: Complaint of right infra orbital swelling since 6 months, gradually increasing in size not associated with pain.On examination- Right sided infraorbital swelling 1.5x1.5cm, firm, mobile, non tender.

GROSS DESCRIPTION:Aspirate was blood mixed.

MICROSCOPIC DESCRIPTION:FNA smears show numerous nucleated and anucleated squamous cells on a haemorrhagic background.

IMPRESSION:
FNAC from infra orbital swelling
Epidermal Inclusion Cyst.

LIQUID BASED CYTOLOGY - GYNAEC CERVICAL CYTOLOGY

SPECIMEN TYPE: Liquid based preparation (The 2014 Bethesda System)

CLINICAL HISTORY: cervix atrophied, something coming out of vagina

GROSS DESCRIPTION: One prepared slide

SPECIMEN ADEQUACY:
Satisfactory for evaluation; endocervical/transformation zone component present

GENERAL CATEGORISATION:
Negative for intraepithelial lesion or malignancy

INTERPRETATION/RESULT:
Negative for intraepithelial lesion or malignancy with scant cellularity .

Note :

Comments:

1. Cerviacal cytology is a screening test primarily for squamous cancer and its precursors and has associated false nagative and false positive results. Follow up of unexplained clinical signs and symptoms are recommanded to minimize false nagative result.
2. Liquid Based Cytology is validated for screening for epithelial cell abnormalities of cervix only and not inflammatory lesions.

LIQUID BASED CYTOLOGY - GYNAEC CERVICAL CYTOLOGY

SPECIMEN TYPE: Liquid based preparation (The 2014 Bethesda System)

CLINICAL HISTORY: Complian of lower abdominal pain with irregular menses P/S- Cervix and vagina healthy, watery white discharge present

GROSS DESCRIPTION: One prepared slides

SPECIMEN ADEQUACY:
Satisfactory for evaluation; endocervical/transformation zone component present

GENERAL CATEGORISATION:
Negative for intraepithelial lesion or malignancy

INTERPRETATION /RESULT:
Inflammatory smear with Shift in flora suggestive of bacterial vaginosis.

Note :Repeat smear after inflammation subsides.

Comments:

1. Cerviacal cytology is a screening test primarily for squamous cancer and its precursors and has associated false nagative and false positive results. Follow up of unexplained clinical signs and symptoms are recommanded to minimize false nagative result.
2. Liquid Based Cytology is validated for screening for epithelial cell abnormalities of cervix only and not inflammatory lesions.

Exfoliative Cytology

SPECIMEN:Peritoneal fluid for cytology

CLINICAL DETAILS: Known case of inferior wall MI, Currently presented with generalised body swelling and shortness of breath since fifteen days, On examination abdomen was distended. Echocardiography showed Concentric LVH with LVEF-55-60%

GROSS DESCRIPTION:Volume- 3ml, Colour- pale yellow, appearance-clear, Clot- absent

MICROSCOPIC DESCRIPTION:Cytocentrifuge smears are scantly cellular show scattered mature lymphocytes. No atypical cells seen.

IMPRESSION:

Peritoneal fluid for cytology

Negative for malignancy - The International System For Reporting of Serous Fluid cytology - Category II

Note:Cell block is under process, if any additional finding seen, an addendum report will follow
